

Project Status Report II

Date of Report Issue/Prepared: February 12th, 2021

Report Prepared By: Bruna Bispo Abatepaulo, Evgeniya Zhukova, Gordon Wells, Karin Zigdon, Marina Savochkina

Employer/Organization: Not Applicable

Project Name:	Mind Manager App	
Project Team:	Fantastic Five	
Period Reporting:	Start Date: Jan 30, 2021	End Date: Feb 12, 2021
Overall Project Health	Yellow (Warning)	

Summary

Project Status Summary

- All the interfaces necessary for the application are basically done (with possible updates during development process).
- All the basic functionality (go from one page to another) is done.
- The team have decided to change the written content of each button in the Selection Page, where the user was supposed to select a best fitting mood for that moment. Now, instead of a mood, the user will select how he/she wants to feel. It is still the same aspect, but easier for the user to understand the dynamic and for the development team to implement the logic based on user selections.
- The initial implementation of the database has been set.

Accomplishments as Planned	Planned but not Accomplished
The initial implementation of the database.	Plan on how the games category will be implemented. The team are having some problems with that.
All the interfaces for the application have been done.	The team has made a research on how to implement the music functionality, but it has not been applied yet.
All the basic functionality for all pages has been coded.	

Upcoming Objectives for Feb 13, 2021 to Mar 19, 2021

	Planned Activities/Tasks for Next Period		
Activity/Task	Assigned To <name/s>	Duration <days>	Date
Code the crossword game inside the application	Gordon Wells, Bruna Bispo	2 weeks	February 28th, 2021
Implement music functionality: <ul style="list-style-type: none"> - Test MediaPlayer class: embed the music inside the application - Test YouTube Data API: embed the music video inside the app 	Marina Savochkina	2 weeks	February 28th, 2021
Add more data to database: <ul style="list-style-type: none"> - Add more questions and its answers - Add more suggestions 	Karin Zigdon	4 days	February 16th, 2021
Get data from database and print it to the user	Evgeniya Zhukova, Bruna Bispo, Gordon Wells	1 week	February 20th, 2021
Research for implementation of database for admin	Evgeniya Zhukova, Marina Savochkina	3 weeks	March 1st, 2021
Test rating algorithm for the questionnaire	Karin Zigdon	2 weeks	February 28th, 2021

Milestones for Next Period		
Milestone (Objective)	Assigned To	Delivery Date
Full implementation of the database	Evgeniya Zhukova	March 15 th , 2021
Game implementation	Gordon Wells, Bruna Bispo	February 28 th , 2021
Music implementation	Marina Savochkina	February 28 th , 2021

Managing Issues and Risk

Issues/Problems	Resolution Strategy	Due Date
Database – only connected locally	Research how to connect the database to a server	March 15 th , 2021

Upcoming Risks	Risk Ranking (Hi, Med, Low)	Risk Impact (Hi, Med, Low)	Mitigation Strategy
Risk of not being able to complete the application for iOS (on XCode)	Hi	Hi	Keep a close look at how the learning process for Swift is going, and, in 3 weeks, decide if it still practical to code the application for iOS.

NOTE: Attach additional sheets if insufficient space available
